

March 17th, 2020

To Our Valued GEL Clients,

GEL remains open for business and ready to support our clients during these uncertain times.

Over the last few weeks, we have taken steps to ensure business continuity and protect the health and safety of our employees, their families and the communities in which we all live. In addition to encouraging all employees and their families to follow public health best practices, we have put in place additional preventative measures, including travel and visitor restrictions, remote working, enhanced facility cleaning protocols, social distancing at all locations and staggered shifts in our laboratories.

We will continue to actively monitor all developments and take the recommendations of national and local authorities to adapt our businesses as necessary to maintain our high levels of customer service and deliver as promised for our valued clients.

Please contact us if you have any questions or concerns or if there is anything GEL can do to support you and your business during this time.

Best Regards,

Mac Hodgson
President, The GEL Group, Inc.
